Vikas Prasad
IAM Developer

Summary

Vikas Prasad is an IAM Developer, with **6 years** of experience with end to end Implementation in Identity and Access Management. Vikas specializes in SailPoint IIQ and Java Technologies. One year of Java development and over 5 years of experience in development, testing, integration and implementation expertise in Identity and Access Management using SailPoint IDM.

Core Competencies

- ➢ End to end IdentityIQ implementation experience
  - Build and deployment,
  - Application On-Boarding (worked on various applications such as Delimited, ActiveDirectory, OpenLDAP, JDBC, Webservices etc..)
  - Expertise and ability on Java and Bean shell programming
  - Excellent problem solving and debugging skills with respect to SailPoint IIQ
  - Life cycle management and workflows.,
  - QuickLinks and custom forms.
  - Setting up OOTB and custom Reports
  - Setting up certifications etc...
  - Creating and understanding Policies.
- ➢ Thorough knowledge and understanding on Identity and Access Management real time scenarios and Admin level challenges.
- ➢ Providing post-implementation, application maintenance and enhancement support to the clients with regards to product & software functions.
- ➢ Flexible Individual as well as a good Team player with strong communication, analytical and organizational skills

Technical Skills

Application Servers
- Apache Tomcat
- JBoss EAP

Operating Systems/Databases
- Microsoft Windows, Linux
- Microsoft SQL
- Oracle
- MySQL

Object-Oriented Development
- Core Java
- C/C++

Applications
- SailPoint IdentityIQ

IDEs
- Eclipse
- Net Beans

Other Tools
- GIT

Education

- Bachelor of Mechanical Engineering

Career Profile

- Worked in ITFace,Inc, Hyderabad from May 2016 to Oct 2019.
- Working in Eshiam Softwares Pvt Ltd, Hyderabad from Oct 2019 to till date.

IAM Project Experiences:

Central Hudson (Oct-2016 to Jan-2017)
- Configured Authoritative/Source applications: Delimited Connector type
- Configured Non-Authoritative/Target applications Active Directory, JDBC, WebServices, OpenLDAP
- Configured the Lifecycle Events like Joiner, Mover, Leaver as per Business Requirements
- Implemented Lifecycle management workflows and approval paths
- Customized access request workflow
- Implemented emergency termination workflow
- Developed custom workflows and rules as per business requirements
- Bug fixing and production support.

Country Financial (Jan-2017 to Mar-2018)
- Configured Authoritative/Source applications: WorkDay connector type
- Upgrade from IdentityIQ to version 8.0 from 7.1p6
- Configured Manager and Advanced Certifications
- Configured Non-Authoritative/Target applications Active Directory, JDBC
- Provide support for existing IdentityIQ Implementation

LinkedIn (Apr-2018 to Sep-2019)
- Configured Authoritative/Source applications: Delimited, SAP HR connector types
- Actively involved in the implementation of Sailpoint IdentityIQ.
- Developed custom rules and workflows using BeanShell and Java.
- Developed Pre-Delegate rules and exclusion rules and escalation rule using BeanShell and Java.
- Developed Build Map ,Pre-Iterate and customization Rules using BeanShell and Java
- Implementing the provisioning feature of SailPoint IIQ by using various connectors.
- Implemented Workflow for LifeCycleEvents (Joiner, Leaver, Mover)

AIG Insurance (Dec-2019 to July-2021)
- Developing custom Tasks and Task Executors and providing solutions for the changing business requirements.
- Customizing Out of the box workflows for LCM Manage Accounts.
- Gathered requirement from clients and used that requirements to implement roles in SailPoint.
- Using IIQ Console for operations such as checkout, import, connector Debug etc.
- Used IQService as part of IdentityIQ for Active Directory (AD) provisioning.
- Defining Provisioning Policy for applications JDBC and AD.
- Invoke custom workflow through Java, bean shell scripting by building Provisioning Plan, launch arguments, account request, attribute request.
- Implementing custom email templates both HTML and plain.
- Worked on various Certifications and corresponding rules.

Jackson National Insurance (Oct-2021 to Present)
- Analysis of the specifications provided by the client
- Help Project Manager to estimate the effort required
- Developing workflows with SailPoint IIQ in Java, XML, Eclipse, Tomcat, and BeanShell.
- Configuration of Roles, Policies and Certifications for governance compliance
- Enhancing rules, aggregations, Workflows, entitlements, groups, workgroup, etc.
- Create identity Life Cycle workflows, defining life cycle events.
- Implemented Audit Plugin to see the Audit events of each individual user at the Identity View Page
- Bug fixing and production support.

SAILPOINT SELF-ASSESMENT:

SAILPOINT – Self-Assessment on a Scale of 1-10 (10 being the highest)	Rating (1-10)
Solving partitioning issues	7
Solving hibernate and lazy initialization errors	6
HR Workday connector expertise	8
SIS PeopleSoft connector expertise	6
Connector partitioning in general	8
LDAP connector expertise	8
ServiceNow Connector expertise	8
Java/BeanShell Coding	9
Code reviews	9
Self-diagnosing issues and implementing solutions	8
All other connectors (JDBC, FILE, API)	8
Plugin framework	6
APIs with plugin framework, SCIM, and connectors	6

SAILPOINT ADMIN – Self-Assessment on a Scale of 1-10 (10 being the highest)	Rating (1-10)
Resolving connector issues	9
Task scheduling and maintenance	8
Certification scheduling	7
Daily Task and Reports maintenance	7
Code deployment	9
UAT testing and repository maintenance	8
Audits and Compliance	7
